

## Lunch And Learn: SIMATIC S7-1200 - Compact Controller with Advanced Functionality

Thursday, February 04, 2010

The S7-1200 is a new modular space-saving controller for small automation systems that require either simple or advanced functionality for logic, HMI and networking. It is both compact and highly powerful – especially in relation to its real-time performance. It is fast, features great communication options, and is programmed with easy-to-operate, easy-to-learn software. Attend the S7-1200 Lunch and Learn for a hands-on trial!

**This event is hosted by:**

Want to save time and money on your next automation project?  
We can show you how.
